

Section 4.1

Properties of Waves

Study Notes

By the end of section 4.1 you should be able to understand the following:

- Waves are disturbances that transmit energy from one place to another
- Waves have amplitude, wavelength, and frequency

NOTES

Describe the main features of a wave

- 1.
- 2.
- 3.
- 4.
- 5.

NOTES

Describe the two major types of waves.

1.

2.
