

**Instructions:**

Using the information (both pictorial and quantitative on the front of this handout, make observations of both the gradual change model of evolution, as well as the punctuated equilibrium model of evolution. After making your observations, infer a description/definition of both the gradual change model of evolution, as well as the punctuated equilibrium model of evolution.

**Observations:**

Gradual Change Model of Evolution	Punctuated Equilibrium Model of Evolution

**Description/Definition:**

Gradual Change Model of Evolution	Punctuated Equilibrium Model of Evolution
