

# Microbiology Vocabulary

Vocabulary Term	Definition (in your own words)
aerobic respiration	
anaerobic respiration	
antibody	
antibiotic	
antigen	
antiseptic	
autotroph	
bacilli	
bacteria	
bacteriophage	
binary fission	
cocci	
conjugation	

Vocabulary Term	Definition (in your own words)
disinfectant	
endospore	
fermentation	
heterotroph	
host cell	
lymphocyte	
lysogenic cycle	
lytic cycle	
motility	
mucous membrane	
mutagen	
nuclear envelope	
nucleic acid core	

pathogen	
phagocytic white blood cell	
primary line of defence	
prokaryote	
protein capsid	
protist	
resistance	
secondary line of defence	
spirilla	
symbiosis	
tertiary line of defence	
vaccine	
viral specificity	

Vocabulary Term	Definition (in your own words)
virus	
white blood cell
